900 GENERAL PROVISIONS: WATERFRONT DISTRICTS

- 900.1** The Waterfront (W) Districts are applied to waterfront areas that have one (1) or more of the following characteristics:
- (a) Geographically, historically, or locationally unique;
 - (b) Adjacent to well-established residential areas;
 - (c) Undergoing transition from light and heavy industrial uses to office and commercial uses; or
 - (d) Where the public health, safety, general welfare, and amenity would be promoted and protected by the encouragement of mixed uses.
- 900.2** The Waterfront District shall be subdivided into W-1, W-2, and W-3 Districts.
- 900.3** The W-1 District permits only a low height and density, the W-2 District allows a medium height and density, and the W-3 District allows the greatest height and density of the three (3) Waterfront Districts.

- 900.4 The purpose of the Waterfront Districts is to encourage a diversity of compatible land uses at various densities, including combinations of residential, offices, retail, recreational, and other miscellaneous uses.
- 900.5 Waterfront Districts are also intended to be relatively self-contained by supplying a variety of housing, service, employment, and recreational opportunities in one (1) location. This characteristic allows one (1) area to serve many different needs of a single population and to thereby reduce the amount of vehicular traffic generated by the uses in the districts.
- 900.6 Except as provided in chapter 21 of this title, in the Waterfront Districts, no building or premises shall be used and no building shall be erected or altered that is arranged, intended, or designed to be used except as specified in §§ 901, 902, and 906 through 916.
